CORPORATE AND BUSINESS SERVICES

From Franchising to Intellectual Property to Estate Planning, our clients receive practical, personal and commercial solutions on time and on budget.

Corporate and Business Services deals with the ordinary and the extraordinary legal requirements of modern business. The department contributes to the development of many organisations including multi-national corporations, mining companies, manufacturers, government affiliated entities, Australian businesses, corporations and off-shore entities.

The resources and versatility of the group means it can handle both small and large projects with ease.

Corporate and Business Services provides advice on acquisitions, mergers, intellectual property, estate planning, projects, resources, construction, transport, corporate structuring and re-structuring, franchising, asset protection, off-shore planning and other business matters.

The specialised Structuring and Estate Planning area gives individually tailored legal and business advice on structuring, asset protection and succession planning.

Our transport practice provides specialist advice on a wide range of areas, including legislative interpretation, contract negotiations, work place health and safety, environmental, operational and competitive issues. The Group is a principal legal advisor to State and National Bus Industry Associations and has been heavily involved in the reforms of the bus industry.

We are able to handle major corporate transactions involving many stakeholder groups as well as providing the full range of general corporate and commercial advisory services to small and medium sized business.
