# LITIGATION AND DISPUTE RESOLUTION SERVICES

**In today's litigation focused society, we have the skills to resolve disputes in the most cost effective way.**

MacGillivrays specialists in litigation and dispute resolution have forged a strong reputation by providing competent, sound advice on the basis of fact rather than opinion or emotion.

Achieving the best result in terms of speed, cost and risk is the optimum solution for clients. Our positive outcomes have resulted from a focus on managing these issues, combined with a proven ability to act as aggressive litigators.

We are experienced in the various aspects of litigation and risk management across a broad range of industries from small individual actions to complex multi-million dollar corporate cases.

Our insolvency experts have extensive experience in deeds of arrangement, winding up and receivership. They appreciate that recovery of assets and protection of rights are key elements of an acceptable outcome for all parties.

In competition law, we have successfully represented parties subject to serious allegations of anti-competitive behaviour. These have included actions involving the ACCC, and investigations into price fixing and anti-competitive practices in the corporate sector including the plastics and IT industries.

Further, through the right tactical approach, and after many obstacles were thrown in our way, our specialists recently achieved a multi-million dollar award in a case involving complex issues of professional negligence, insurance indemnity, trade practices and contractual liability.

In one of our other successes, we acted for a large multi-national construction company after a serious accident occurred on site, ensuring the company did not incur a significant fine or civil liability.

COMMERCIAL LITIGATION / INTELLECTUAL PROPERTY LITIGATION / DEBT RECOVERY
